

SECTION 1. Identification of the Substance/Mixture and of the Company/Undertaking**1.1. Product Identifier**

Trade Name (As Labeled): Calprotectin Sample Collection Tube

Catalog Number: KAPEPKT843

Kit Components: The tube contains buffer, detergents and preservatives.

1.2. Relevant Identified Uses of the Substance or Mixture and Uses Advised Against

Product Use Information: Calprotectin Sample Collection Kit is a device intended for human fecal sample collection and extraction. The extracted sample can be used directly for calprotectin level determination by professional laboratories.

Uses Advised Against No information available.

1.3. Details of the Supplier of the Safety Data Sheet

Manufacturer's Name: DIAsource ImmunoAssays S.A.

Address: Rue du Bosquet,2
B-1348 Louvain-la-Nauve
Belgium

Telephone: + 32 (0) 10/84.99.11

E-mail address: products.support@diasource.be

1.4. Emergency Telephone Number

DIAsource (only office hours): + 32 (0) 10.84.99.11

Centre Anti-Poisons (BE): 070 245 245

Local Anti-Poison Center: Please refer to your local Anti-Poison Center!

SECTION 2. Hazards Identification**2.1. Classification of the Substance or Mixture**

This substance does not meet the classification criteria to be listed as a hazardous material according to the Regulation (EC) No. 1272/2008 (CLP/EU-GHS), 29 CFR 1910.1200 (OSHA): Contains Sodium Azide (less than 0.1%) – not a hazardous substance at this concentration.

2.2. Label Elements**Emergency Overview:**

This Calprotectin Sample Collection Tube contains components making up this ELISA kit. The device contains a buffer solution, detergent, stabilizer, and preservative.

Health Hazards: Possible skin and eye irritant.

Flammability Hazards: Non-Flammable solution.

Reactivity Hazards: None Known.

Environmental Hazards:	Not expected to have significant environmental effects.
Emergency Considerations:	Emergency responders must wear the proper personal protective equipments (and have appropriate fire-suppression equipment) suitable for the situation to which they are responding.

Hazard Communication

Hazard Determining Components of Labeling:	Not Applicable.
GHS Pictogram:	Not Applicable.
Signal Words:	Not Applicable.
Hazard Statement(s):	Not Applicable.
Precautionary Statement Prevention:	Not Applicable.
Precautionary Statement Response:	Not Applicable.
Precautionary Statement Storage:	Not Applicable.
Precautionary Statement Disposal:	Not Applicable.

Health Hazards or Risk from Exposure:

Prolonged contact with the components in this kit may irritate the skin. Contact with eyes may cause irritation or redness. This product is designed to be used in a laboratory environment.

Acute: Individuals using this product should be wearing the proper personal protective equipment to prevent skin and eye contact.

Chronic: None known.

2.3. Other Hazards – None

SECTION 3. Composition/Information on Ingredients

3.1. Substances

This substance is a mixture.

3.2. Mixtures

Hazard Classification: Calprotectin Sample Extraction Buffer	CAS #	EINECS #	Amount	EC 1272/2008 Annex VI, Part 3 Classification
Sodium Azide	26628-22-8	247-852-1	< 0.1%	Not hazardous at this concentration.

SECTION 4. First-Aid Measures

4.1. Description of First Aid Measures

Contaminated individuals of chemical exposure must be taken for medical attention if any adverse effect occurs. Rescuers should be taken for medical attention, if necessary. Take a copy of the label and SDS to a health professional with the contaminated individual.

Eye Contact:	If chemical contacts the eye, open victim's eyes while under gentle running water. Use sufficient force to open eyelids. Have victim "roll" eyes. Minimum flushing is for 15 minutes. Remove contact lenses, if worn. Seek medical attention if irritation persists.
Skin Contact:	Wash contacted area with soap and water. Remove exposed or contaminated clothing, taking care not to contaminate eyes. Seek medical attention if irritation develops or persists.
Inhalation:	Not a normal route of entry; however, if chemical is inhaled, or breathing becomes difficult, remove victim to fresh air. If necessary, use artificial respiration to support vital functions. Seek medical attention.
Ingestion:	If chemical is swallowed, call physician or poison control center for most current information. If professional advice is not available, do not induce vomiting. Never induce vomiting or give diluents (milk or water) to someone who is unconscious, having convulsions, or who cannot swallow. Victims of chemical exposure must be taken for medical attention. Rescuers should be taken for medical attention, if necessary. Take a copy of the label and SDS with the victim to the health professional.

4.2. Most Important Symptoms and Effects, Both Acute and Delayed

The most important symptoms and effects are described in the labeling (see section 2.2) and/or in section 11.

4.3. Indication of any Immediate Medical Attention and Special Treatment Needed

Medical Conditions Aggravated by Exposure: None known.

Recommendations to Physicals: Treat symptoms and eliminate overexposure.

SECTION 5. Firefighting Measures

NFPA Rating Explanation Guide					
RATING NUMBER	HEALTH HAZARD	FLAMMABILITY HAZARD	INSTABILITY HAZARD	RATING SYMBOL	SPECIAL HAZARD
4	Can be lethal	Will vaporize and readily burn at normal temperatures	May explode at normal temperatures and pressures	ALK	Alkaline
3	Can cause serious or permanent injury	Can be ignited under almost all ambient temperatures	May explode at high temperature or shock	ACID	Acidic
2	Can cause temporary incapacitation or residual injury	Must be heated or high ambient temperature to burn	Violent chemical change at high temperatures or pressures	COR	Corrosive
1	Can cause significant irritation	Must be preheated before ignition can occur	Normally stable. High temperatures make unstable	OX	Oxidizing
0	No hazard	Will not burn	Stable	☢	Radioactive
				WF	Reacts violently or explosively with water
				W/OX	Reacts violently or explosively with water and oxidizing

This chart for reference only - For complete specifications consult the NFPA 704 Standard

5.1. Extinguishing Media

Fire Extinguishing Materials: Use extinguishing materials appropriate for surrounding fire.

Unsuitable Extinguishing Media: For this substance/mixture, no limitations of extinguishing agents are given.

5.2. Special Hazards Arising from the Substance or Mixture

Unusual Fire and Explosive Hazards: The product is a water based mixture with no known fire or explosion hazards.

Explosion Sensitivity to Mechanical Impact: Not sensitive.

Explosion Sensitivity to Static Discharge: Not sensitive.

Flash Point: Non-flammable.

Auto-ignition Temperature: Not applicable.

Flammable Limits (%): Lower and Upper: Not Applicable.

5.3. Advice for Firefighters

Special Fire-Fighting Procedures: Incipient fire responders should wear eye protection. Structural firefighters must wear Self-Contained Breathing Apparatus and full protective equipment. Isolate materials not yet involved in the fire and protect personnel. Move containers from fire area if this can be done without risk; otherwise, cool with carefully applied water spray. If possible, prevent runoff water from entering storm drains, bodies of water, or environmentally sensitive areas.

SECTION 6. Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

Spill and Leak Response: Proper protective equipment should be used. Personnel should be trained for spill response operations.

Spills: Trained personnel following pre-planned procedures should handle non-incident releases. Absorb spilled materials using polypads or other suitable absorbent material. Place all spill residue in an appropriate container and seal. Decontaminate the area thoroughly. Do not mix with wastes from other materials. Dispose of in accordance with applicable Federal, State, and local procedures.

6.2 Environmental Precautions

Prevent further spillage if safe. Clean spillage area thoroughly and dispose of as described in section 6.1.

6.3 Methods and Material for Containment and Cleaning up

Absorb spilled materials using polypads or other suitable absorbent material. Place all spill residue in an appropriate container and seal. Decontaminate the area thoroughly. Do not mix with wastes from other materials. Dispose of in accordance with applicable Federal, State, and local procedures.

6.4 Reference to Other Sections

For further information, see section(s) 2,8, 13.

SECTION 7. Handling and Storage

7.1. Precautions for Safe Handling

Work and Hygiene Practices: As with all chemicals, avoid getting this product on you or in you. Wash thoroughly after handling this product. Do not eat, drink, smoke, or apply cosmetics while handling this product. Avoid breathing mists or sprays generated by this product. Use in a well-ventilated location. Remove contaminated clothing immediately.

7.2. Conditions for Safe Storage, Including any Incompatibilities

Storage and Handling Practices: Store product in properly labeled, closed containers at temperatures between 2-8°C. Protect from physical damage. Keep containers closed when not in use.

7.3. Specific End Use(s)

Apart from the uses mentioned in section 1.2, no other specific uses are stipulated.

SECTION 8. Exposure Controls/Personal Protection

8.1. Control Parameters

Ventilation and Engineering Controls: Use with adequate ventilation to ensure exposure levels are maintained below the established limits. Currently, International exposure limits are not established for all components of this product.

Please check with competent authority in each country for the most recent limits in place.

The following information on appropriate Personal Protective Equipment is provided to assist employers in complying with OSHA regulations found in 29 CFR Subpart I (beginning at 1910.132) or equivalent standards of Canada, or standards of EU member states (including EN 149 for respiratory PPE, and EN 166 for face/eye protection), and those of Japan. Please reference applicable standards for relevant details.

8.2. Exposure Controls

Respiratory Protection:	If exposure limits are exceeded, use only respiratory protection authorized in the US Federal OSHA Respiratory Protection Standard (29 CFR 1910.134), equivalent US State standards, Canadian CSA Standard Z94.4-93, the European Standard EN149, or EU member states.
Eye Protection:	Splash goggles or safety glasses with side shields recommended. If necessary, refer to US OSHA 29 CFR 1910.133, Canadian Standards, and the European Standard EN166, Australian Standards, or relevant Japanese Standards.
Hand Protection:	Compatible protective gloves recommended. Wash hands after removing gloves. If necessary refer to US OSHA 29 CFR 1910.133, Canadian Standards, and the European Standard EN166, Australian Standards, or relevant Japanese Standards.
Body Protection:	Use body protection appropriate for task. Coveralls, rubber aprons, or chemical protective clothing made from natural rubber are generally acceptable, depending upon the task. If necessary, refer to appropriate Standards of Canada, or appropriate Standards of the EU, Australian Standards, or relevant Japanese Standards. If a hazard of injury to the feet exists due to falling objects, rolling objects, where objects may pierce the soles of the feet or where employee's feet may be exposed to electrical hazards, use foot protection, as described in US OSHA 29 CFR 1910.139.

SECTION 9. Physical and Chemical Properties

9.1. Information on Basic Physical and Chemical Properties

Vapor Density:	Not Applicable
Specific Gravity @ 20°C:	No data, (water = 1).
Vapor Pressure:	No data @ 20°C.
Physical State:	Liquid.
Density and/or Relative Density:	No data available.
Color:	Clear to yellowish
Odor:	Odorless
Odor Threshold:	Not Applicable
Evaporation Rate (n -BaAC =1):	Not Applicable
Melting Point/Freezing Point:	Not established.
Boiling Point or Initial Boiling Point and Boiling Range:	Not established

Flammability:	Not Flammable
Lower and Upper Explosion Limit:	Not Applicable
Flash Point:	No data available.
Auto-Ignition Temperature:	No data available.
Decomposition Temperature:	No data available.
Kinematic Viscosity:	No data available.
Solubility in Water:	Soluble.
pH:	Not established.
Partition Coefficient n-octanol/water (log value):	Not Applicable.
Particle Characteristics	Not Applicable.

9.2. Other Information – None.

SECTION 10. Stability and Reactivity

10.1. Reactivity

No data available.

10.2. Chemical Stability

Stable under ordinary conditions of use and storage.

10.3. Possibility of Hazardous Reactions

Hazardous depolymerization will not occur.

10.4. Conditions to Avoid

Temperatures above or below the recommended storage range.

10.5. Incompatible Materials

No information available.

10.6. Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

SECTION 11. Toxicology Information**11.1. Information on Hazard Classes as Defined in Regulation (EC) No 1272/2008**

Acute Toxicity:	Oral: No data available. Inhalation: No data available. Dermal: No data available.
Skin Corrosion/Irritation:	No data available. Irritancy of product not known.
Serious Eye Damage/Irritation:	No data available.
Respiratory or Skin Sensitization:	No data available. This product is not known to cause human or respiratory sensitization.
Germ Cell Mutagenicity:	No data available.
Carcinogenicity:	Suspected Cancer Agent: The components of this product are not listed by agencies tracking the carcinogenic potential of chemical compounds as follows: NTP Regulated: No IARC Regulated: No OSHA Regulated: No
Reproductive Toxicity:	Listed below is information concerning the effects of this product and its components on the human reproductive system. Mutagenicity: The components of this product are not reported to produce mutagenic effects in humans. Embryotoxicity: The components of this product are not reported to produce embryotoxic effects in humans. Teratogenicity: The components of this product are not reported to produce teratogenic effects in humans. Reproductive Toxicity: The components of this product are not reported to produce reproductive effects in humans.
STOT-Single Exposure:	No data available.
STOT-Repeated Exposure:	No data available.
Aspiration Hazard:	No data available.

11.2. Information on Other Hazards

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated. Hazardous properties cannot be excluded but are unlikely when the product is handled appropriately.

SECTION 12. Ecological Information**12.1. Toxicity**

No data available.

12.2. Persistence and Degradability

No data available.

12.3. Bioaccumulative Potential

No data available.

12.4. Mobility in Soil

No data available.

12.5. Results of PBT and vPvB Assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

12.6. Endocrine Disrupting Properties

No data available.

12.7. Other Adverse Effects

All work practices must be aimed at eliminating environmental contamination.

Environmental Fate: No data available.

SECTION 13. Disposal Considerations

13.1. Waste Treatment Methods

Preparing waste for disposal: Waste disposal must be in accordance with appropriate US Federal, State, and local regulations, those of Canada, Australia, EU Member States, and Japan.

SECTION 14. Transport Information

14.1. UN Number or ID Number

UN Number: None. This product is not classified as dangerous goods

DOT Classification: Non-regulated material. This product is not classified as dangerous goods

DOT Labeling Requirements: None. This product is not classified as dangerous goods

IATA Labeling Requirements: None. This product is not classified as dangerous goods

14.2. UN Proper Shipping Name

None. This product is not classified as dangerous goods.

14.3. Transport Hazard Class(es)

US Department of Transportation (DOT) Shipping Regulation: This product is not classified as dangerous goods, per US DOT regulations, under 49 CFR 172.101.

Transport Canada, Transportation of Dangerous Goods Regulation: This product is not classified as Dangerous Goods, per regulations of Transport Canada.

International Air Transport Association (IATA): This product is not classified as Dangerous Goods, by rules of IATA.

International Maritime Organization (IMO) Designation: This product is not classified as Dangerous Goods by the

European Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR)

International Maritime Organization.
This product is not classified by the United Nations Economic Commission for Europe to be dangerous goods.

14.4. Packing Group

This product is not classified as dangerous goods.

14.5. Environmental Hazards

This product is not classified as dangerous goods.

14.6. Special Precautions for User

This product is not classified as dangerous goods.

14.7. Marinetime Transport in Bulk According to IMO Instruments

This product is not classified as dangerous goods.

SECTION 15. Regulatory Information

15.1. Safety, Health and Environmental Regulations/Legislation Specific for the Substance or Mixture

United States Regulations:

Sara Reporting Requirements: None.

Marine Pollutant: This product contains no components listed as a Marine Pollutant under 49 CFR 172.101, Appendix B.

TSCA: All components in this product mixture are listed on the US Toxic Substances Control Act (TSCA) inventory of chemicals or are exempt from listing.

SARA 311/312: None.

US CERCLA Reportable Quantity (RQ): None.

US TSCA Inventory Status: All of the components of this product are listed in the TSCA Inventory or exempt.

California Safe Drinking Water and Toxic Enforcement Act (Proposition 65): This product does not contain any component above the 0.1% level which is listed as a California Proposition 65 chemical.

Note: the chemical identity of some or all components present is confidential business information (trade secret) and is being withheld as permitted by 29 CFR 1910.1200 (i).

Canadian Regulations:

Canadian DSL/INDSL Inventory Status: All of the components of this product are on the DSL Inventory or exempt.

Canadian Environmental Protection Act (CEPA) Priorities Substances Lists: No component of this product is on the CEPA First Priorities Substance Lists.

Canadian Whims Classification and Symbols: Not regulated.

15.2. Chemical Safety Assessment

Chemical safety assessment not available.

SECTION 16. Other Information

All chemicals may pose unknown hazards and should be used with cautions. This Safety Data Sheet (SDS) applies only to the material as packaged. If this product is combined with other materials, deteriorates, or becomes contaminated, it may pose hazards not mentioned in this SDS. It shall be the user's responsibility to develop proper methods of handling and personal protection based on the actual conditions of use. While this SDS is based on technical data judged to be reliable, DIAsource ImmunoAssays S.A. assumes no responsibility for the completeness or accuracy of the information contained herein. Users should consider this data as only a supplement to other information gathered by them and must make independent determinations of suitability and completeness of information from all sources to assure proper use and disposal of these materials, as well as the safety and health of employees, customers, and protection of the environment.

Hazard Statements

Not Applicable.

Precautionary Statements

Not Applicable.
